Campaign Spending: [List of Filers](#)

As a candidate for the office of State Representative District 11 from South Maui, I believe my qualifications such as 30+ years of management in the computer industry fit extremely well with the office I seek.

As an example, education is a major legislative issue and my five years as an instructor at the Junior College level provides personal insight into the many problems facing teachers, students, and parents and I will make sure that a Kihei High School becomes a reality.

I wrote the "Seniors" plank in the Republican State platform in 2006, and my experience as AARP President in South Maui allowed me to see the many issues facing Maui's seniors, such as identity theft, fraud, and home care.

As the author of the tax reform Charter Amendment being considered by the County Administration, I believe that broader state tax reform is a reasonable next step. One that I will pursue and one that is very necessary to our state's financial health.

Finally, the issues of transportation and health care are of major concern to residents of South Maui. Therefore, I will use my years of experience in other sections of the country to present fresh ideas to the legislature, including the finalizing of the hospital for Kihei.

My wife of 34 years and my son and four grandchildren strongly support my candidacy. The energy I will bring to this key House seat, makes me the best choice to carry your message to Honolulu.
